

# High-Quality Monofilaments

Additive manufacturing –  
fused filament fabrication

**3D Printing**  
Filament

## Perlon® – The Filament Company

Perlon® - The Filament Company - is an innovative and global group of companies specialising in the production of synthetic filaments. We produce at sites in Germany, Poland, China, India and the USA. We offer an extremely diverse product portfolio for almost every technical application. We are constantly creating new solutions for unique products - Our Engineering. Your success.

## Perlon® 3D Printing Filaments

- Made in Germany
- Guaranty of diameter accuracy by online measurement
- B2B for professional users and reseller
- Diverse material range on request: ABS, ASA, PC, PA12, PLA, PEEK, PEEK-CNT, PEI, PEI-CF, PET-G, PETG-Alu, PETG-CF, PET-CF, PP, PVA, TPE, TPU, TPS
- Standard stock items available:

### Perlon® PET-G

Colours: black and nature  
1.75mm, 2.1 kg spools

### Perlon® Performance-PLA

Colours: Black, silky white, silky blue, silky grey  
1.75mm, 2.1 kg spools

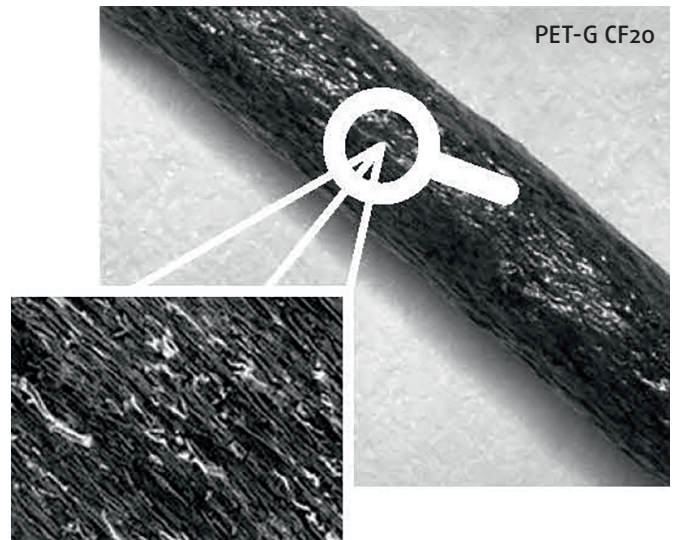

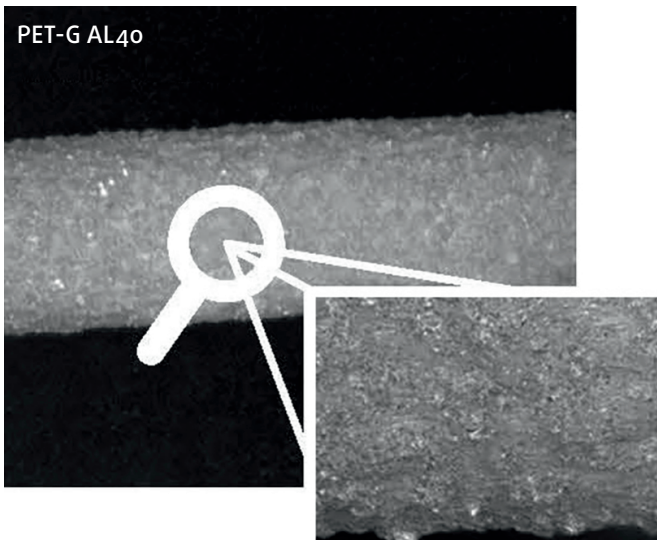

# High-Quality Monofilaments

## Additive manufacturing – fused filament fabrication

### Customized manufacturing

- Toll manufacturing of 3D printing filaments on an industrial scale
- Tailored filament development
- Wide range of fillers (reinforcements and additives)
- Large range of filler content (5 to < 50 %)
- Customized filament diameter
- Various spool sizes

### Research projects

- Partner for Universities and Institutes
- Member of various research networks

This product information has been compiled to the best of our knowledge and with the greatest of care. We cannot, however, assume any liability for the correctness, completeness or currentness of the contents. Depending on diameter and production technique the technical parameters and the behaviour of the monofilament can vary.
